### The advantages of lateral filing:

- Space-saving because the file is only as thick as the number of documents in it.
- Up to 100% space-saving compared to 4-drawer filing cabinets.
- Colour tabs and coding possibilities give you a better overview and save you valuable time, up to 40%!
- Files for loose-leaf and punched documents.
- A single methodology for both static and working archives.
- Can be used in mobile systems and almost any existing cupboard.
- Files can be re-used.
